Auralex gramma isolation platforms

The GRAMMA™ v2 yields nearly total acoustic isolation, resulting in a purity of tone that has to be heard to be believed! "Thanks so much for the cool amp stand and wedge! We're fiddling around with it now at the shop, and it's really remarkable how the amp responds! With a Golden Melody, it made the mids clearer and more defined... Great to see it's Made In USA!" - Mark Baier, Victoria Amplifier Co. Benefits: A tighter, more focused low-end Hear the true sound of your amp, loudspeaker or subwoofer Instantly improve your sound on-stage or in the studio Dimensions: 23" long x 15" wide x 1.75" high Weight Limit: California residents see Prop 65 WARNINGS US Patent 6,845,841 © Copyright Auralex Acoustics, Inc. You've invested time and money in finding the right gear, so take a step towards getting the clarity and definition you need, be it from your studio monitoring setup or your favorite tube guitar amplifier. It's also useful underneath floor monitors to give you more definition for vocal monitoring. - Drew Kennedy (The Cedartowns) Clarity - get it with Auralex's GRAMMA v2 series isolation risers. Don't second guess your gear choices, get the clarity you want by putting an Auralex GRAMMA v2 isolation riser to work for you and your sound! The GRAMMA v2 is optimal for use onstage or in the studio under guitar and bass rigs. Upon the return of defective product or component prior to the expiration of the warranty period, Auralex will, at its option, repair the defective product or component or replace it with a comparable product or component. ("Auralex") warrants to the original purchaser ("you") that Auralex's products will perform to published specifications and will be free from defects in materials and workmanship under normal application, installation, use and service conditions for a period of ninety (90) days* from the date of purchase. For more information, go to our Support tab at the top and select Warranty. You get a clearer response from speakers and less low end radiating from the cabinets. This carefully engineered studio and live performance solution allows the true sound of your amp or loudspeaker to come through by negating resonance artifacts that can muddy up the tone of your amp. The GRAMMA™ v2 (Gig and Recording, Amp and Monitor, Modulation Attenuator) is an incredibly effective patented device that's used to float an amp or loudspeaker. Auralex GRAMMA v2 Isolation Riser Features: Better mid- and low-frequency definition for clarity Isolates your gear from the floor to stop low end rumbles Gives you nearly total acoustic isolation for better tone New easy-grab handle for easy transport Road-ready carpet durable and rugged for years of use Lower profile for increased stability Supports most amps, speaker cabinets, subs, and monitors In the studio or on the stage, the GRAMMA v2 is your key to getting tonal clarity! This highly effective isolation platform features an Ozite® covering over an inert structural layer that floats on a 1" pad of acclaimed Auralex Platfoam™. No matter what you put on it, isolating sound on stage means you can keep the volume lower, so you'll have less feedback and stage noise to deal with. Using an isolation riser decouples your sound source from its surroundings, preventing low end waves from traveling through floors and walls, muddying up your sound, and masking the frequencies essential to sonic definition. GRAMMA™ Family Spec Sheet | Guitar Player ISO Series® Spec Sheet | ISO Series® Spec Sheet Drew Kennedy - 28th Apr 2020 5 As a touring bassist musician, there's nothing more worrying than have to play a concert more often than not on a large hollow wooden stage, to eliminate those bad low frequencies that just reverberate, I use Gramma isolation pads under my bass rig to obtain that nice tight bass sound, that just cuts through the mix, I would recommend the Gramma isolation pads for any gigging musician.
